

Pressacavi IP68

Cable glands IP68

Grado di protezione IP68 5 bar (30 min) IP66  
Materiale pressacavo Poliammide 6  
Guarnizione in Cloroprene (CR)  
Temperatura d'esercizio: Permanente -20 +100°C- Intermittente -30 +150°C  
124M...EX03 pressacavo idoneo per ambienti con rischio di esplosione EEX e II livello "e"

Protection degree IP68 5 bar (30 min) IP66  
Cable gland material Polyamide 6  
Sealing of Chloroprene (CR)  
Working Temperature: Permanent -20 +100°C - Intermittent -30 +150°C  
124M...EX03 cable glands suitable for explosive areas EEX e II with safety level "e"
