

Introduction:

- The LWTT range of enclosures are the best available on the market.
- A well engineered project which has been continuously updated and improved has created a wide range of possible variations, Enclosures are available in portrait, landscape and 2 door configurations.
- The main characteristic of the enclosures is the robust construction achieved by a careful mix of design, automated production system and top quality materials, including:
 - High performance technology used for locking systems and hinge pins.
 - Zinc alloy for hinges.
 - Thermosetting epoxy polyester powder coating for finishes.
 - Sheet steel.

Technical specifications:

- Standard: IEC60529
- Certificate: CE
- Material: high-quality cold roll steel
- Color: Ral7032 or Ral7035
- Mounting plate: Orange or Galvanized
- Paint finish: Both externally and internally protected with epoxy polyester coating
- Lock: Plastic or Metal
- Body and door thickness: 1.0-1.5mm
- Mounting plate thickness: 1.2-2.0mm
- IP rate: IP66

Models:

Model	Thickness(mm)		
	Door	Body	M.P
LWTT 200*200*150	1.0	1.0	1.2
LWTT 250*200*150	1.0	1.0	1.2
LWTT 300*200*150	1.0	1.0	1.2
